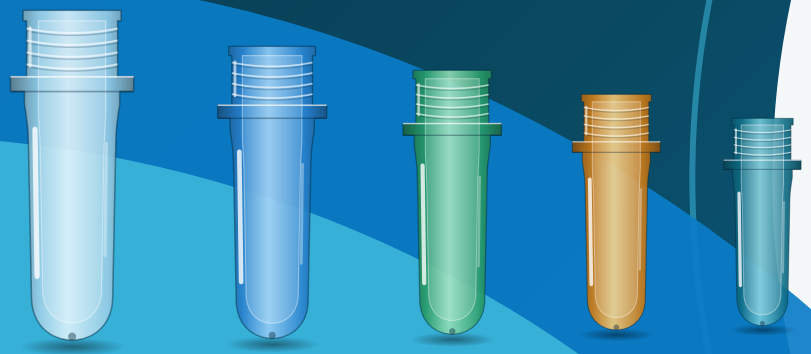
THE CARE PACK LTD.

Manufacturing Excellence in Plastic Packaging

Serving Pharmaceutical | Chemical | FMCG | Food & Beverage | Industrial Sectors | Exports



PET PREFORMS · BOTTLES · CLOSURES · CUSTOM MOULDING

ABOUT US

Built on quality, driven by reliability.

Founded in Bangladesh in 2012, **The Care Pack Limited** has established itself as a trusted manufacturer and exporter of innovative plastic packaging solutions for the pharmaceutical, adhesive, agrochemical, chemical, consumer goods, industrial, and specialty sectors.

With a focus on quality excellence, operational reliability, and continuous innovation, we partner with leading national and multinational companies to deliver customized packaging solutions that ensure product integrity, functionality, and value.

Supported by advanced manufacturing technologies, modern production facilities, and a highly skilled team, we are committed to delivering exceptional quality, dependable service, and long-term customer partnerships.

Your Trusted Partner in Plastic Packaging Solutions.

WHO WE ASPIRE TO BE

Vision, Mission & Values

VISION

To be one of Bangladesh's most trusted and innovative plastic packaging manufacturers, delivering sustainable, high-quality solutions that empower industries and create lasting value in local and global markets.

MISSION

- Deliver superior-quality plastic products with uncompromising consistency.
- Build long-term partnerships through reliability and customer-centric service.
- Promote sustainable manufacturing practices and responsible resource use.
- Expand our global footprint through export excellence and innovation.

CORE VALUES

01
Quality Excellence

We are committed to delivering products and services that consistently exceed customer expectations.

02
Integrity & Trust

We conduct business with honesty, transparency, and professionalism, earning confidence through every interaction.

03
Innovation & Improvement

We continuously advance our technologies, processes, and capabilities to create better solutions for our customers.

04
Reliability & Commitment

We honor our commitments through consistent quality, dependable delivery, and exceptional service.

05
Responsibility & Sustainability

We embrace responsible manufacturing practices that support our people, communities, and the environment.

OUR SERVICES

What We Do

At The Care Pack Limited, we deliver innovative plastic packaging and manufacturing solutions that help businesses protect products, enhance brand value, and optimize operational efficiency.

1

Packaging Solutions

High-quality plastic packaging products designed for pharmaceutical, chemical, FMCG, food, lubricant, and industrial applications.

2

Custom Manufacturing

Precision-engineered plastic components and packaging solutions developed to meet specific customer requirements.

3

Contract Manufacturing

Comprehensive private-label and OEM manufacturing services supported by advanced production capabilities and quality control systems.

4

Export Solutions

Trusted manufacturing and supply capabilities serving global markets with a commitment to quality, compliance, and on-time delivery.

5

OEM & Industrial Solutions

Customized plastic products and industrial components engineered for performance, durability, and consistency.

Adhesive, dropper & nozzle bottles, caps, handles

HDPE jars, bottles & measuring scoops

PRODUCT RANGE

Product Category

MATERIALS **HDPE** **PP** **LDPE** **PET** **PVC**

- Industrial Chemical Bottles, Containers & Lids
- Agrochemical Bottles, Containers & Lids
- Pesticide Bottles & Containers
- Adhesive Bottles & Containers
- Pharmaceutical Bottles, Lids, Measuring Cups & Droppers
- Lubricant Containers & Lids
- FMCG Items
- Food & Beverage Bottles & Containers
- Cosmetics & Toiletries Bottles & Containers
- Household Products
- Electric Components
- **PET Preforms**
- Gift Items

PET Preforms

Up to 100,000 pcs per day from our dedicated PET section. See pages 7–8.

PET SECTION

PET Preforms

The preform is the heart of every PET bottle. Our dedicated PET section moulds preforms on two 220-ton high-speed injection machines, with dehumidified resin drying, and converts them into bottles on six in-house blow machines.

One supplier, from resin to finished bottle.

2 × 220 T

COLOUR OPTIONS ON REQUEST · ILLUSTRATION

PET PRODUCTION

From Preform to Bottle

1 · Resin Drying

PET resin is dried in dehumidifiers (2 × 400 kg) so moisture never weakens the preform.

2 · Injection

Two 220-ton high-speed machines mould the preforms.

3 · Preform

Uniform, clean preforms, ready to blow in-house or supply to bottlers.

4 · Blow Moulding

Six PET blow machines re-heat and blow preforms into bottles, 10 ml to 2,000 ml.

5 · Inspect & Pack

Checked and packed for dispatch to customers.

Infrastructure & Capacity

Procurement of Raw Materials

We maintain a well-diversified procurement network, sourcing raw materials from reputable local manufacturers and suppliers as well as from internationally recognized producers in the USA, Saudi Arabia, China, Qatar, Taiwan, and India. This diversified sourcing approach mitigates supply-chain risks and supports consistent product quality.

USA | Saudi Arabia | China | Qatar | Taiwan | India

Raw Materials

Quality you can document

A dedicated 300 sq ft QC Lab and stringent quality control across production support consistent specification, batch after batch. Copies of all documents are available on request.

RESPONSIBILITY

Our Sustainability Commitments

Low Carbon Manufacturing

through energy-efficient operations and optimized production processes.

Responsible Resource Management

by reducing waste, conserving water, and maximizing material utilization.

Advanced Eco-Friendly Machinery

that supports cleaner, more efficient production.

Waste Reduction & Recycling Programs

across manufacturing operations.

Sustainable Supply Chain Practices

that promote environmental responsibility and ethical standards.

Continuous Improvement

through ongoing monitoring, innovation, and environmental performance enhancement.

Safe & Sustainable Workplace

focused on employee well-being and environmental compliance.

Responsibility & Sustainability

We embrace responsible manufacturing practices that support our people, communities, and the environment.

CLIENTELE
